GitHub: github.com/ChetanYadav34

Email: chetan3contact@gmail.com
Mobile: +91-7905141458

SKILLS

Language: C, C++, JavaScript, TypeScript, Python
Frameworks: ReactJS, Next.js, Tailwind CSS
AI Technologies: Generative AI, Prompt Engineering, LangChain, LangGraph
Backend: ExpressJS, REST APIs
Databases: MySQL, MongoDB
Tools/Platforms: Git, GitHub, Firebase, Power BI, Excel
CS Fundamentals: Data Structures, Algorithms, Object-Oriented Programming, Operating Systems
Soft Skills: Problem-Solving, Critical Thinking, Adaptability, Continuous Learning

PROJECTS

AI Investment Research Agent | [GitHub](#) | [Live Link](#) Jun 2026 – Present

- Created an AI-powered investment research platform that automates company evaluation by combining financial analysis, market news, and AI-generated investment reports through an interactive web application.
- Orchestrated a multi-agent workflow using **LangGraph** and **LangChain**, enabling specialized AI agents to perform company research, news analysis, financial evaluation, and report generation.
- Leveraged **Google Gemini** with Retrieval-Augmented Generation (RAG) techniques to generate context-aware investment reports using relevant financial data and market news.
- Streamlined the research process through a responsive web interface featuring secure API communication, asynchronous workflows, and real-time AI-generated reports.

Technologies: Next.js, React, TypeScript, LangChain, LangGraph, Google Gemini, Tailwind CSS

Deadlock Handling Toolkit | [GitHub](#) | [Live Link](#) Jan 2025 – Apr 2025

- Developed a comprehensive Deadlock Handling Toolkit to monitor and resolve deadlocks in computing environments, incorporating simulation capabilities for testing prevention, detection, and recovery strategies.
- Implemented core **Operating Systems** concepts by validating safe resource allocation through **Banker's Algorithm** and identifying circular wait conditions using **Resource Allocation Graphs**.
- Produced an interactive web dashboard featuring real-time deadlock monitoring, system log tracking, and graphical visualization modules for academic and diagnostic use.

Technologies: HTML, CSS, JavaScript, Operating Systems, Banker's Algorithm, Resource Allocation Graphs

TRAINING

Cyber Security Essentials | [Certificate](#) Lovely Professional University, Punjab

Cyber Security Trainee Jun 2025 – Jul 2025

- Architected a secure real-time communication system tailored for sensitive legal and medical consultations requiring protected data exchange.
- Integrated **AES-256** encryption, **SHA-256** hashing, and **JWT**-based authentication mechanisms while applying Linux hardening practices to strengthen system security.
- Established end-to-end confidentiality with zero unencrypted storage and sustained sub-second response latency under simulated workload conditions.

Technologies: Socket.IO, Firebase Firestore, AES-256, SHA-256, JWT, Linux Hardening, Nmap, Wireshark

CERTIFICATES

- Build Generative AI Apps and Solutions with No-Code Tools | [Infosys Springboard](#) Aug 2025
- ChatGPT-4 Prompt Engineering | [Infosys Springboard](#) Aug 2025
- Computational Theory | [Infosys Springboard](#) Aug 2025
- Cloud Computing | [NPTEL](#) Apr 2025

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.50** Aug 2023 – Present

Sarla International Academy Basti, Uttar Pradesh
Intermediate; **Percentage: 60** Mar 2021 – May 2022

Dawn Vasco School Basti, Uttar Pradesh
Matriculation; **Percentage: 59** Mar 2019 – May 2020
